

Closing Reflections

Dr. Richard Jones, Student of Learning

" Never doubt that a small group of citizens can change the world. Indeed it is the only thing that ever has."

Margaret Mead

**Change
Model**

**Components of
School
Excellence**

Components to School Excellence

1. Embrace Common Vision and Goals for Rigor Relevance/
Relationships for ALL Students

2. Inform Decisions through Data Systems

3. Empower Leadership Teams to
Take Action and Innovate

4. Clarify Student Learning Expectations

5. Adopt Effective Instructional Practices

6. Adapt Organizational Structures

7. Monitor Progress/Improve Support Systems

8. Refine Process on an Ongoing Basis

**Aspire for Rigor, Relevance
and Relationships**

**Begin with the End in Mind
(Learning Criteria)**

**Consider the Components
of Excellence**

Leading Change in High Schools

- **Information, ideas and best practices related to key principles of change**
- **The most current research and models to craft school-wide solutions**
- **Practical advice, insight, and effective tools to improve high schools**

Offer Multiple Pathways

Prioritize the Curriculum

Hold **Teams** Accountable for Learning

**“None of us is as
smart as all of us.”**

Ken Blanchard

"My team is having trouble thinking outside the box. We can't agree on the size of the box, what materials the box should be constructed from, a reasonable budget for the box, or our first choice of box vendors."

Expand the Density and Distribution of Leadership

Leadership in a school is not a person but a disposition for taking action. It is the role of the traditional school leaders to broaden the acceptance of leadership among many staff who share a common vision.

Hold Teams **Accountable** for Learning

Provide collaborative opportunities with expectations and follow up

Opportunity without expectation is wasted effort. What you expect - inspect! Follow up to make team meetings important and productive. Do not assume that good teachers know how to participate in or lead a productive meeting. Finally, people will not trust people they do not know.

Hold Teams Accountable for **Learning**

Measure Success through focus on Learning rather than Teaching

*Commit to student learning and provide multiple pathways,
personalized instruction, variable time and strategies that
result in student learning*

Decide with Data

Know Your Students, Know Your Strengths, No Excuses

Live Lofty Expectations

Measure Learning by Proficiency

Nurture Positive Relationships

Offer Multiple Pathways

Prioritize the Curriculum

Know Your Students

- **First step in relationships**
- **Transitions from previous schools**
- **Articulation of instruction across grade**
- **Characteristics of Digital Natives**
- **Support services as needed**
- **Learning styles**
- **Culture and background**

Know Your Strengths

- **Don't try to do everything**
- **Right people in right places**
- **Use community resources**
- **Learn from one another**

No Excuses

- **Acknowledge students backgrounds but don't lower expectations**
- **Keep your “eye on the prize”**

Decide with Data
